

## *Look what we've done*

### **We've made you more efficient**

ABSILTD developed project plans for collection, review, production and ongoing management of your cases using technology to increase your efficiency. Our skilled project managers guided the teams, ensuring deadlines were met. We've helped you use the tools to increase your efficiency and effectiveness.

### **We've educated you**

ABSILTD is a CT Summation Certified Trainer and held group CLE courses within law firms and also taught classes where individuals attended. In addition, ABSILTD has been there to guide you through the challenges of electronic discovery and litigation support when you needed it.

### **We've saved your client money**

ABSILTD has learned your project needs; sought out potential vendors to process and host your client's data; and negotiated and analyzed the bids to provide your client the best alternative for each project. Because we recognize that each case is unique, we found you the optimal solution in every situation.

### **We've supported you without increase in your capital or overhead costs**

ABSILTD assisted clients with their litigation needs. Whether you have a litigation support staff or not, we have been able to provide services on site or remotely thereby offering you the assistance you need: when you need it, where you need it.

### **We've provided you flexible solutions**

ABSILTD's experience and creative solutions provided you with customized databases and review teams to analyze the most complex matters, allowing you to discover the answers you need. These tailored designs have let you present your case with accuracy and confidence.

### **We've started new projects quickly & on demand**

ABSILTD provided trained, qualified reviewers to subjectively review your data. Because of our experience, we're able to hit the ground running with little if any down time.

*We're here when you need us*
